Part III

Draft Response to Office Action Re 09/29/86

Notes: * — Route to J. Paradiso ASAP — *

John - Per my voice mail, this material should be of help in prosecuting this application. I have tried to "clean up" the objections/rejections because of claim language. The remainder of the objections should disappear based on the "missing material" you now have. I will call to see if you think I should submit this formally.

John

DRAFT - Do Not Enter

Commissioner of Patents and Trademarks
Washington, DC 20231

Dear Sir:

SUBJECT: Applicant- Neil C. Schoen
Serial Number- 09/296,864
Filing Date- 02/17/98

In response to the Examiner's Action of 01/28/2000, which was based on an incomplete CIP application due to an inadvertent misplacement of material in the applicant's file folder resulting from a delayed 1.53b petition and subsequent change of Examiners, the following actions are requested:

In the matter of the drawings (form PTO-948), it is requested that a request for formal drawing corrections continue to be held in abeyance until the allowable subject matter is determined.

With regard to the Examiner's objections, the following changes to the Claims, as properly included in the 18 February 1998 CIP application, are requested.

CLAIMS Changes

1. (thrice amended) A [technique] system to increase revenues paid to mass transit services organizations and commercial products corporations by addition of electronic lottery processes and operations, which collect
